Garden Design for the Short Season Yard

Everything You Need to Know for the Chinook and
Canadian Prairie Zones

The *only* garden design book for the Canadian
prairies.

After his great success with the 2014 release of [The Chinook Short Season Yard](#) and [The Prairie Short Season Yard](#), popular CBC gardening columnist Lyndon Penner returns with his new book, **Garden Design for the Short Season Yard**. Prairie gardeners will be pleased with this first and only garden design book written specifically for the Canadian prairie zones, including the Chinook region. In his uniquely entertaining, conversational style, Lyndon provides clear advice that will help you have your yard looking beautiful.

Intended as a do-it-yourself guide, Lyndon believes everyone can learn the basics of garden design. Topics include choosing a theme; gardening for privacy; low maintenance, water wise, and shade gardens; focal points; 12 months of colour; dealing with the elements; texture and contrast; urban and rural gardens, perennials and annuals; pots and containers; foliage and why it matters, and more.

About the Author

Lyndon Penner has been gardening since the age of three and has never forgotten the thrill of growing his first flowers from seed. A landscape designer and horticultural consultant, Lyndon is a gardening columnist on CBC Radio in Alberta and Saskatchewan. He appears frequently as a guest speaker at universities and colleges in western Canada. Lyndon lives in Calgary.

Lyndon will be promoting his new book throughout the prairies, and his popular weekly gardening segments on CBC Radio 1 Calgary and Saskatchewan will resume this spring.
